

We create chemistry

Safety Data Sheet

Loxanol® MI 6311

Revision date : 2025/02/25

Version: 3.0

Page: 1/11

(30756558/SDS_GEN_CA/EN)

1. Identification

Product identifier used on the label

Loxanol® MI 6311

Recommended use of the chemical and restriction on use

Recommended use*: additives for inks, varnishes or coatings, stabilizer, Paint additive

Recommended use*: Chemical; for industrial use only

* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Details of the supplier of the safety data sheet

Company:

BASF Canada Inc.
5025 Creekbank Road
Building A, Floor 2
Mississauga, ON, L4W 0B6, CANADA

Telephone: +1 289 360-1300

Emergency telephone number

24 Hour Emergency Response Information

CHEMTREC: 1-800-424-9300

BASF HOTLINE: (800) 454-COPE (2673)

Other means of identification

Chemical family: organic compounds, ketone

2. Hazards Identification

According to Hazardous Products Regulations (HPR) (SOR/2015-17)

Classification of the product

No need for classification according to GHS criteria for this product.

Label elements

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 2/11

(30756558/SDS_GEN_CA/EN)

The product does not require a hazard warning label in accordance with GHS criteria.

Hazards not otherwise classified

If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

3. Composition / Information on Ingredients

According to Hazardous Products Regulations (HPR) (SOR/2015-17)

Under the referenced regulation, this product does not contain any components classified for health hazards above the relevant cut off value.

4. First-Aid Measures

Description of first aid measures

General advice:

First aid personnel should pay attention to their own safety. If the patient is likely to become unconscious, place and transport in stable sideways position (recovery position). Immediately remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air, seek medical attention.

If on skin:

Immediately wash thoroughly with soap and water, seek medical attention.

If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

If swallowed:

Immediately rinse mouth and then drink 200-300 ml of water, seek medical attention.

Most important symptoms and effects, both acute and delayed

Symptoms: (Further) symptoms and / or effects are not known so far

Hazards: No data available.

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment:

Treat according to symptoms (decontamination, vital functions), no known specific antidote.

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 3/11

(30756558/SDS_GEN_CA/EN)

5. Fire-Fighting Measures

Suitable extinguishing media:
water spray, foam, dry powder, carbon dioxide

Unsuitable extinguishing media for safety reasons:
water jet

Special hazards arising from the substance or mixture

Hazards during fire-fighting:

nitrogen oxides, carbon oxides

The substances/groups of substances mentioned can be released in case of fire. Under certain conditions in case of fire other hazardous combustion products may be generated.

Advice for fire-fighters

Protective equipment for fire-fighting:

Wear a self-contained breathing apparatus.

Further information:

Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Handle in accordance with good industrial hygiene and safety practice.

Environmental precautions

Discharge into the environment must be avoided.

Methods and material for containment and cleaning up

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Pick up with suitable appliance and dispose of.

Incinerate or take to a special waste disposal site in accordance with local authority regulations.

7. Handling and Storage

Precautions for safe handling

Ensure thorough ventilation of stores and work areas. Handle in accordance with good industrial hygiene and safety practice.

Protection against fire and explosion:

Keep away from sources of ignition - No smoking.

Conditions for safe storage, including any incompatibilities

Segregate from acids and acid forming substances.

Further information on storage conditions: Containers should be stored tightly sealed in a dry place.

Storage stability:

Storage temperature: $\leq 40\text{ }^{\circ}\text{C}$

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 4/11

(30756558/SDS_GEN_CA/EN)

Storage duration: 12 Months

From the data on storage duration in this safety data sheet no agreed statement regarding the warrantee of application properties can be deduced.

8. Exposure Controls/Personal Protection

No substance specific occupational exposure limits known.

Personal protective equipment

Respiratory protection:

Respiratory protection required in case of exceptional circumstances (e.g.: accidental release, exceeding the occupational exposure limit) Wear a NIOSH-certified (or equivalent) organic vapour/particulate respirator as needed.

Hand protection:

Chemical resistant protective gloves should be worn to prevent all skin contact., Consult with glove manufacturer for testing data., Protective glove selection must be based on the user's assessment of the workplace hazards.

Eye protection:

Safety glasses with side-shields.

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical-protection suit.

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. Store work clothing separately. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift.

9. Physical and Chemical Properties

Form:	liquid	
Odour:	amine-like	
Odour threshold:	Not determined due to potential health hazard by inhalation.	
Colour:	colourless to yellowish	
pH value:	9 - 11 (100 g/l, 20 °C) Information based on the main component/s.	
Melting point:	< -30 °C	
Freezing point:	No data available.	
decomposition point:	> 150 °C (996 hPa) The substance / product decomposes. Information based on the main component/s., Product turns dark.	(OECD Guideline 103)
Flash point:	No flash point - Measurement made up to pilot light extinguishes.	(ISO 2719, closed cup)

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 5/11

(30756558/SDS_GEN_CA/EN)

	No flash point - Measurement made up to pilot light extinguishes.	(ISO 13736, closed cup)
	No flash point - Measurement made up to pilot light extinguishes.	(ISO 2592, open cup)
Lower explosion limit:	For liquids not relevant for classification and labelling.	
Upper explosion limit:	For liquids not relevant for classification and labelling.	
<i>Information on: 1-(2-hydroxyethyl)imidazolidin-2-one</i>		
Autoignition:	375 °C	(DIN 51794)

SADT:	Study scientifically not justified.	
Vapour pressure:	0.000013 hPa (25 °C)	(OECD Guideline 104)
	Information based on the main component/s.	
Density:	1.311 g/cm3 (20 °C, 1,013 hPa)	(OECD Guideline 109)
	Information based on the main component/s.	
Vapour density:	Water content greater than 10%.	
Partitioning coefficient n-octanol/water (log Pow):	-0.7 (20 °C)	(OECD Guideline 107)
	Information based on the main component/s.	
<i>Information on: 1-(2-hydroxyethyl)imidazolidin-2-one</i>		
Thermal decomposition:	380 °C, 140 kJ/kg (DSC (OECD 113))	

Viscosity, dynamic:	27.4 mPa.s (25 °C)	(ASTM D 7042)
Particle size:	The substance / product is marketed or used in a non solid or granular form.	
Solubility in water:	982 g/l (20 °C, 1,013 hPa)	
	Information based on the main component/s.	
Miscibility with water:	completely (e.g. >=90%)	

10. Stability and Reactivity

Reactivity

Corrosion to metals:
Corrosive effects to metal are not anticipated.

Oxidizing properties:
not fire-propagating

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

No hazardous reactions if stored and handled as prescribed/indicated.

Conditions to avoid

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 6/11

(30756558/SDS_GEN_CA/EN)

Avoid extreme heat.

Incompatible materials

strong bases, strong acids

Hazardous decomposition products

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity/Effects

Acute toxicity

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of acute toxicity: Virtually nontoxic after a single ingestion. Virtually nontoxic after a single skin contact.

Oral

Type of value: ATE

Value: > 5,000 mg/kg

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Type of value: LD50

Species: rat (male/female)

Value: > 2,000 mg/kg (similar to OECD guideline 401)

Limit concentration test only (LIMIT test). No mortality was observed.

Inhalation

No data available.

Dermal

Type of value: ATE

Value: > 5,000 mg/kg

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Type of value: LD50

Species: rat (male/female)

Value: > 5,000 mg/kg (OECD Guideline 402)

Limit concentration test only (LIMIT test). No mortality was observed.

Assessment other acute effects

Assessment of STOT single:

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 7/11

(30756558/SDS_GEN_CA/EN)

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Irritation / corrosion

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of irritating effects: Not irritating to the skin. Not irritating to the eyes.

Skin

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Species: rabbit

Result: non-irritant

Method: OECD Guideline 404

Eye

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Species: rabbit

Result: non-irritant

Method: OECD Guideline 405

Sensitization

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of sensitization:

Skin sensitizing effects were not observed in animal studies.

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Guinea pig maximization test

Species: guinea pig

Result: Non-sensitizing.

Method: OECD Guideline 406

Aspiration Hazard

No aspiration hazard expected.

Chronic Toxicity/Effects

Repeated dose toxicity

Assessment of repeated dose toxicity: Based on available data, the classification criteria are not met.

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of repeated dose toxicity: Repeated oral uptake of the substance did not cause substance-related effects.

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 8/11

(30756558/SDS_GEN_CA/EN)

Genetic toxicity

Assessment of mutagenicity: Based on available data, the classification criteria are not met.

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of mutagenicity: The substance was not mutagenic in bacteria. The substance was not mutagenic in mammalian cell culture. The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition.

Carcinogenicity

Assessment of carcinogenicity: Based on available data, the classification criteria are not met.

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Assessment of carcinogenicity: No data was available concerning carcinogenic activity.

Reproductive toxicity

Assessment of reproduction toxicity: Based on available data, the classification criteria are not met.

Teratogenicity

Assessment of teratogenicity: Based on available data, the classification criteria are not met.

Other Information

The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. Ecological Information

Toxicity

Aquatic toxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

Toxicity to fish

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

LC50 (96 h) 10,250 mg/l, Brachydanio rerio (OECD 203; ISO 7346; 84/449/EWG, C.1, static)

The statement of the toxic effect relates to the analytically determined concentration.

LC50 (96 h) > 1,004 mg/l, Oncorhynchus mykiss (OECD Guideline 203, semistatic)

The statement of the toxic effect relates to the analytically determined concentration.

Aquatic invertebrates

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

EC50 (48 h) > 100 mg/l, Daphnia magna (Directive 79/831/EEC, static)

The statement of the toxic effect relates to the analytically determined concentration.

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 9/11

(30756558/SDS_GEN_CA/EN)

Aquatic plants

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

EC50 (72 h) > 1,059 mg/l (growth rate), *Pseudokirchneriella subcapitata* (OECD Guideline 201, static)

The statement of the toxic effect relates to the analytically determined concentration.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

DIN EN ISO 8192 activated sludge, domestic/EC20 (30 min): > 1,000 mg/l

Nominal concentration.

Persistence and degradability

Assessment biodegradation and elimination (H2O)

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Not readily biodegradable (by OECD criteria). Inherently biodegradable. The product is biodegradable after extended adaptation.

Elimination information

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

< 10 % DOC reduction (28 d) (DIN EN ISO 7827) (municipal sewage treatment plant effluent)

> 90 % DOC reduction (28 d) (OECD Guideline 302 B) (activated sludge, domestic)

Assessment of stability in water

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

In contact with water the substance will hydrolyse slowly.

Information on Stability in Water (Hydrolysis)

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

$t_{1/2}$ > 365 d (pH 7, 25 °C, pH value 7), (calculated)

Bioaccumulative potential

Bioaccumulation potential

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

Because of the *n*-octanol/water distribution coefficient (log Pow) accumulation in organisms is not to be expected.

Safety Data Sheet

Loxanol® MI 6311

Revision date: 2025/02/25

Version: 3.0

Page: 10/11

(30756558/SDS_GEN_CA/EN)

Mobility in soil

Assessment transport between environmental compartments

Information on: 1-(2-hydroxyethyl)imidazolidin-2-one

The substance will not evaporate into the atmosphere from the water surface.

Adsorption to solid soil phase is not expected.

Additional information

Other ecotoxicological advice:

The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations. The local regulations on waste-water treatment must be followed.

13. Disposal considerations

Waste disposal of substance:

Incinerate in suitable incineration plant, observing local authority regulations.

Container disposal:

Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after being thoroughly cleaned.

14. Transport Information

Land transport

TDG

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Registration status:

Chemical DSL, CA

DSL listed and/or otherwise compliant.
