

# Safety data sheet

Page: 1/10

BASF Safety data sheet  
Date / Revised: 03.02.2025  
Product: **Dispex® AA 4935**

Version: 5.1

(30042000/SDS\_GEN\_SG/EN)

Date of print: 08.11.2025

## 1. Substance/preparation and manufacturer/supplier identification

**Product name:**  
**Dispex® AA 4935**

Use: Raw material, for industrial use only

Manufacturer/supplier:

BASF South East Asia Pte Ltd.  
128 Beach Road #18-01  
Guoco Midtown, 189773, Singapore  
Telephone: +65 8322 4420  
Telefax number: +65 6 334-0330  
E-mail address: benny.zou@basf.com

Emergency information:

Singapore Emergency Toll-Free Number:  
Telephone: 1800-723-1361  
International emergency number:  
Telephone: +49 180 2273-112

## 2. Hazard identification

Classification of the substance and mixture:  
No need for classification according to GHS criteria for this product.

Label elements and precautionary statement:

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification:

The product is under certain conditions capable of dust explosion. Product does not contain a substance above legal limits included in the list established in accordance with Article 59(1) of Regulation (EC) No 1907/2006 for having endocrine disrupting properties or is identified to have

BASF Safety data sheet  
Date / Revised: 03.02.2025  
Product: **Dispex® AA 4935**

Version: 5.1

(30042000/SDS\_GEN\_SG/EN)

Date of print: 08.11.2025

endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.  
May form explosible dust-air mixture if dispersed

---

### 3. Composition/information on ingredients

#### Chemical nature

Substance nature: Substance

sodium polyacrylate

No particular hazards known.

---

### 4. First-Aid Measures

General advice:

Remove contaminated clothing.

If inhaled:

If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.

On skin contact:

Wash thoroughly with soap and water

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:

Rinse mouth and then drink 200-300 ml of water. Do not induce vomiting unless told to by a poison control center or doctor.

Note to physician:

Symptoms: (Further) symptoms and / or effects are not known so far

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote, administer corticosteroid dose aerosol to prevent pulmonary odema.

---

### 5. Fire-Fighting Measures

Suitable extinguishing media:

dry powder, foam

Unsuitable extinguishing media for safety reasons:

carbon dioxide

Specific hazards:

harmful vapours

Generation of fumes/fog. The substances/groups of substances mentioned can be released in case of fire.

BASF Safety data sheet  
Date / Revised: 03.02.2025  
Product: **Dispex® AA 4935**

Version: 5.1

(30042000/SDS\_GEN\_SG/EN)

Date of print: 08.11.2025

Further information:

The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations.

---

## 6. Accidental Release Measures

### Personal precautions:

Avoid dust formation. Use personal protective clothing.

### Environmental precautions:

Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.

### Methods for cleaning up or taking up:

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Contain with dust binding material and dispose of.

Avoid raising dust.

---

## 7. Handling and Storage

### Handling

Breathing must be protected when large quantities are decanted without local exhaust ventilation.

Protection against fire and explosion:

Dust can form an explosive mixture with air.

### Storage

Suitable materials for containers: Low density polyethylene (LDPE), Stainless steel 1.4301 (V2), Stainless steel 1.4401, glass, High density polyethylene (HDPE)

Further information on storage conditions: Protect against moisture. Avoid extreme heat.

---

## 8. Exposure controls and personal protection

### Components with occupational exposure limits

No substance specific occupational exposure limits known.

### Personal protective equipment

Respiratory protection:

Suitable respiratory protection for lower concentrations or short-term effect: Particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection:

Hand protection not required.

BASF Safety data sheet  
Date / Revised: 03.02.2025  
Product: **Dispex® AA 4935**

Version: 5.1

(30042000/SDS\_GEN\_SG/EN)

Date of print: 08.11.2025

Eye protection:  
Safety glasses with side-shields.

General safety and hygiene measures:  
Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended.

---

## 9. Physical and Chemical Properties

|                            |                                                            |                            |
|----------------------------|------------------------------------------------------------|----------------------------|
| Form:                      | powder                                                     |                            |
| Colour:                    | slightly yellow                                            |                            |
| Odour:                     | faint odour                                                |                            |
| Odour threshold:           | No data available.                                         |                            |
| pH value:                  | 6.5 - 8.0<br>(20 °C)                                       | (DIN ISO 976)              |
| softening temperature:     | not applicable                                             |                            |
| Boiling range:             | not applicable                                             |                            |
| Flash point:               | not applicable                                             |                            |
| Evaporation rate:          | The product is a non-volatile solid.                       |                            |
| Flammability (solid/gas):  | not flammable                                              | (derived from flash point) |
| Lower explosion limit:     | 125 g/m <sup>3</sup>                                       | (DIN EN 14034-3)           |
| Upper explosion limit:     | For liquids not relevant for classification and labelling. |                            |
| Ignition temperature:      | > 500 °C                                                   |                            |
| Thermal decomposition:     | No decomposition if used correctly.                        |                            |
| Self ignition:             | not self-igniting                                          |                            |
| Self heating ability:      | It is not a substance capable of spontaneous heating.      |                            |
| SADT:                      | No data available.                                         |                            |
| Minimum ignition energy:   | > 999 mJ                                                   | (DIN EN 13821)             |
|                            | Inductivity: 1 mH                                          |                            |
| Explosion hazard:          | not explosive                                              |                            |
| Fire promoting properties: | not fire-propagating                                       |                            |
| Vapour pressure:           | No data available.                                         |                            |
| Density:                   | approx. 0.55 g/cm <sup>3</sup><br>(20 °C)                  |                            |
| Relative density:          | No data available.                                         |                            |

#### Particle characteristics

|                             |                      |
|-----------------------------|----------------------|
| Particle size distribution: | No data available. - |
| Specific Surface Area:      | No data available.   |
| Particle Shape:             | No data available.   |
| Dustiness:                  | No data available.   |

---

## 10. Stability and Reactivity

Conditions to avoid:  
Avoid extreme temperatures. Avoid dust formation.

Thermal decomposition: No decomposition if used correctly.

Substances to avoid:  
No substances known that should be avoided.

Hazardous reactions:  
No hazardous reactions when stored and handled according to instructions.

Hazardous decomposition products:  
No hazardous decomposition products if stored and handled as prescribed/indicated.

Chemical stability:  
The product is chemically stable.

Reactivity:  
No hazardous reactions if stored and handled as prescribed/indicated.

---

## 11. Toxicological Information

### Routes of exposure

#### Acute oral toxicity

Experimental/calculated data:  
LD50rat (oral): 6,400 mg/kg

#### Acute inhalation toxicity

LC50 rat (by inhalation): > 5.1 mg/l 4 h (OECD Guideline 403)

#### Acute dermal toxicity

LD50 rabbit (dermal): > 5,000 mg/kg

#### Assessment of acute toxicity

Virtually nontoxic after a single ingestion. Virtually nontoxic after a single skin contact. Virtually nontoxic by inhalation. Inhalation-risk test (IRT): No mortality within 8 hours as shown in animal studies. The inhalation of a highly saturated vapor-air mixture represents no acute hazard.

#### Symptoms

(Further) symptoms and / or effects are not known so far

#### Irritation

Assessment of irritating effects:  
Not irritating to the skin. Not irritating to the eyes.

Experimental/calculated data:  
Skin corrosion/irritation rabbit: non-irritant (BASF-Test)

Serious eye damage/irritation: No data available.

#### Respiratory/Skin sensitization

Assessment of sensitization:  
The chemical structure does not suggest a sensitizing effect.

Experimental/calculated data:  
No data available.

#### Germ cell mutagenicity

Assessment of mutagenicity:  
No mutagenic effect was found in various tests with bacteria and mammalian cell culture.

#### Carcinogenicity

Assessment of carcinogenicity:  
The whole of the information assessable provides no indication of a carcinogenic effect.

Experimental/calculated data:  
No data available.

### **Reproductive toxicity**

Assessment of reproduction toxicity:  
Not expected to cause reproductive toxicity (based on composition).

Experimental/calculated data:  
No data available.

### **Developmental toxicity**

Assessment of teratogenicity:  
The data available for an assessment of the effect of the substance on developmental toxicity are not sufficient for a proper evaluation.

### **Specific target organ toxicity (single exposure)**

Remarks: No data available.

### **Repeated dose toxicity and Specific target organ toxicity (repeated exposure)**

Assessment of repeated dose toxicity:  
The information available on the product provides no indication of toxicity on target organs after repeated exposure.

Experimental/calculated data:  
No data available.

### **Aspiration hazard**

No aspiration hazard expected.

### **Other relevant toxicity information**

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

---

## **12. Ecological Information**

### **Ecotoxicity**

Assessment of aquatic toxicity:  
Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations.

Toxicity to fish:  
LC50 (96 h) 2,200 mg/l, *Leuciscus idus*

Aquatic invertebrates:  
EC0 (48 h)  $\geq$  100 mg/l, *Daphnia magna*

Aquatic plants:

BASF Safety data sheet  
Date / Revised: 03.02.2025  
Product: **Dispex® AA 4935**

Version: 5.1

(30042000/SDS\_GEN\_SG/EN)

Date of print: 08.11.2025

No data available.

Microorganisms/Effect on activated sludge:  
No data available.

Chronic toxicity to fish:  
No data available.

Chronic toxicity to aquatic invertebrates:  
No data available.

### **Mobility**

Assessment transport between environmental compartments:  
No data available.

### **Persistence and degradability**

Elimination information:  
< 20 % DOC reduction (OECD 302B; ISO 9888; 88/302/EWG, Teil C)

### **Sum parameter**

Chemical oxygen demand (COD): (DIN 38409 Part 41) 430 mg/g

### **Bioaccumulation potential**

Assessment bioaccumulation potential:  
The product has not been tested.

Bioaccumulation potential:  
Based on its structural properties, the polymer is not biologically available. Accumulation in organisms is not to be expected.

### **Additional information**

Other ecotoxicological advice:  
Do not release untreated into natural waters. The local regulations on waste-water treatment must be followed. Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations.

---

## **13. Disposal Considerations**

Must be disposed of or incinerated in accordance with local regulations.

Contaminated packaging:  
Uncontaminated packaging can be re-used.  
Packs that cannot be cleaned should be disposed of in the same manner as the contents.

---

## **14. Transport Information**

### **Domestic transport:**

Not classified as a dangerous good under transport regulations
