 Substances listed in regulation (EU) No 1169/2011, Annex II (substances or products causing allergies or intolerances)
 The a.m. substances are not used in the manufacture of the product either as raw materials or as additives. Therefore the title product has not been analyzed for these substances. However, based on our knowledge of the composition of the raw materials and additives and the manufacturing process involved, it can be stated with a reasonable degree of certainty that the a.m. substances should not be present in the product, except those small ubiquitous traces, which may be detectable all over the world.
 Candidate List according to Article 59(1) REACH
 BASF checks after each inclusion of new substances in the "Candidate List", whether our products contain such substances in a concentration equal to or above 0,1% (w/w). Should this be the case, a corresponding reference will be included in chapter 3 of the relevant EU safety data sheets within four weeks the latest. We will automatically dispatch the updated versions to all customers, which obtained these products from us within the last twelve months.
