

Safety data sheet

Page: 1/10

BASF Safety data sheet
Date / Revised: 12.11.2025
Product: **Acronal® TC 1015**

Version: 2.0

(30790823/SDS_GEN_SG/EN)

Date of print: 14.11.2025

1. Substance/preparation and manufacturer/supplier identification

Product name:
Acronal® TC 1015

Use: Raw material, for industrial use only

Manufacturer/supplier:
BASF South East Asia Pte Ltd.
128 Beach Road #18-01
Guoco Midtown, 189773, Singapore
Telephone: +65 8322 4420
Telefax number: +65 6 334-0330
E-mail address: benny.zou@basf.com

Emergency information:
Singapore Emergency Toll-Free Number:
Telephone: 1800-723-1361
International emergency number:
Telephone: +49 180 2273-112

2. Hazard identification

Classification of the substance and mixture:
No need for classification according to GHS criteria for this product.

Label elements and precautionary statement:

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification:
No specific dangers known, if the regulations/notes for storage and handling are considered. If the product adheres to skin, irritation may occur when it dries.

BASF Safety data sheet
Date / Revised: 12.11.2025
Product: **Acronal® TC 1015**

Version: 2.0

(30790823/SDS_GEN_SG/EN)

Date of print: 14.11.2025

3. Composition/information on ingredients

Chemical nature

Substance nature: mixture

Preparation based on: polyacrylate, modified

dispersed in:
water

Contains: crosslinker component

| No particular hazards known.

4. First-Aid Measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air, seek medical attention.

On skin contact:

Wash thoroughly with soap and water

On contact with eyes:

Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

On ingestion:

Rinse mouth and then drink 200-300 ml of water. Do not induce vomiting unless told to by a poison control center or doctor.

Note to physician:

Symptoms: (Further) symptoms and / or effects are not known so far

Hazards: No hazards anticipated.

Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-Fighting Measures

Suitable extinguishing media:

water spray, dry powder, foam, carbon dioxide

Specific hazards:

No particular hazards known.

Special protective equipment:

No data available.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.
Product itself is non-combustible; fire extinguishing method of surrounding areas must be considered.

6. Accidental Release Measures

Personal precautions:

Use personal protective clothing. Avoid contact with skin and eyes.

Environmental precautions:

Do not release untreated into natural waters.

Methods for cleaning up or taking up:

For small amounts: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Dispose of absorbed material in accordance with regulations.

For large amounts: Pump off product.

7. Handling and Storage

Handling

Handle in accordance with good industrial hygiene and safety practice. After long storage, slight quantities of carbon monoxide may be formed. To our best knowledge, the occupational exposure limit (OEL) is not exceeded during use. Entering of tanks must only be performed after intensive cleaning and when it is ensured that residual vapours have been removed. Consideration of national laws and international standards for confined space entry should be taken in to account. In case of doubt, the concentration of Carbon monoxide must be determined.

Storage

Suitable materials for containers: High density polyethylene (HDPE), Low density polyethylene (LDPE), Polyester resin, glass reinforced (Palatal A410), Stainless steel 1.4301 (V2), Stainless steel 1.4401, enamelled, glass

Further information on storage conditions: Store protected against freezing. Containers should be stored tightly sealed in a dry place. Protect from direct sunlight.

Protect from temperatures below: 5 °C

Protect from temperatures above: 60 °C

8. Exposure controls and personal protection

Components with occupational exposure limits

| No substance specific occupational exposure limits known.

BASF Safety data sheet
 Date / Revised: 12.11.2025
 Product: **Acronal® TC 1015**

Version: 2.0

(30790823/SDS_GEN_SG/EN)

Date of print: 14.11.2025

Personal protective equipment

Hand protection:

Suitable chemical resistant safety gloves (EN ISO 374-1) also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN ISO 374-1): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) etc. Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

General safety and hygiene measures:

Hands and/or face should be washed before breaks and at the end of the shift. Avoid contact with skin and eyes.

9. Physical and Chemical Properties

Form:	liquid, dispersion
Colour:	white
Odour:	almost odourless
Odour threshold:	No data available.

pH value:	3.0 - 4.0 (23 °C)	(DIN ISO 976)
-----------	----------------------	---------------

Melting point:	No data available.
----------------	--------------------

Information on: water	
Melting point:	0 °C

Boiling point:	No data available.
----------------	--------------------

Information on: water	
Boiling point:	100 °C

Flash point:	>= 250 °C
--------------	-----------

Flammability (solid/gas):	not flammable	(derived from flash - and boiling point)
---------------------------	---------------	--

Lower explosion limit:	For liquids not relevant for classification and labelling.
------------------------	--

Upper explosion limit:	For liquids not relevant for classification and labelling.
------------------------	--

Ignition temperature:	No data available.
-----------------------	--------------------

Thermal decomposition:	No decomposition if used correctly.
------------------------	-------------------------------------

BASF Safety data sheet
 Date / Revised: 12.11.2025
 Product: **Acronal® TC 1015**

Version: 2.0

(30790823/SDS_GEN_SG/EN)

Date of print: 14.11.2025

Self ignition:	not self-igniting	
Self heating ability:	It is not a substance capable of spontaneous heating.	
Explosion hazard:	not explosive	
Fire promoting properties:	not fire-propagating	
Vapour pressure:	No data available.	
Information on: water		
Vapour pressure:	23.4 hPa (20 °C) Literature data.	

Density:	approx. 1.06 g/cm ³ (20 °C)	(DIN 53217)
Relative density:	No data available.	
Relative vapour density (air):	Water content greater than 10%.	
Solubility in water:	partly soluble (15 °C)	
Miscibility with water:	miscible	
Solubility (qualitative) :	No data available.	
Solubility (qualitative) :	No data available.	
Solubility (qualitative) :	No data available.	
Partitioning coefficient n-octanol/water (log Pow):	No data available.	
Viscosity, dynamic:	300 - 800 mPa.s (23 °C, 100 1/s)	(DIN EN ISO 3219)
Viscosity, kinematic:	No data available.	
Solids content:	49.0 - 51.0 %	(DIN EN ISO 3251)

Particle characteristics

Particle size distribution:	No data available. -
Specific Surface Area:	No data available.
Particle Shape:	No data available.
Dustiness:	No data available.

10. Stability and Reactivity

Conditions to avoid:

Avoid extreme temperatures.

Thermal decomposition: No decomposition if used correctly.

Substances to avoid:

No substances known that should be avoided.

Hazardous reactions:

No hazardous reactions when stored and handled according to instructions. After long storage, slight quantities of carbon monoxide may be formed.

No hazardous decomposition products if stored and handled as prescribed/indicated.

Chemical stability:

The product is stable if stored and handled as prescribed/indicated.

Reactivity:

No hazardous reactions if stored and handled as prescribed/indicated.

11. Toxicological Information

Routes of exposure

Acute oral toxicity

Experimental/calculated data:
(oral):No data available.

Acute inhalation toxicity

(by inhalation):No data available.

Acute dermal toxicity

(dermal):No data available.

Assessment of acute toxicity

Virtually nontoxic after a single ingestion.

Symptoms

(Further) symptoms and / or effects are not known so far

Irritation

Assessment of irritating effects:

Not irritating to the eyes. Not irritating to the skin. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Experimental/calculated data:

Skin corrosion/irritation: No data available.

Serious eye damage/irritation: No data available.

Respiratory/Skin sensitization

Assessment of sensitization:

There is no evidence of a skin-sensitizing potential. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Experimental/calculated data:

No data available.

Germ cell mutagenicity

Assessment of mutagenicity:

The chemical structure does not suggest a specific alert for such an effect.

Carcinogenicity

Assessment of carcinogenicity:

The whole of the information assessable provides no indication of a carcinogenic effect.

Experimental/calculated data:

No data available.

Reproductive toxicity

Assessment of reproduction toxicity:

Not expected to cause reproductive toxicity (based on composition).

Experimental/calculated data:

No data available.

Developmental toxicity

Assessment of teratogenicity:

The data available for an assessment of the effect of the substance on developmental toxicity are not sufficient for a proper evaluation.

Specific target organ toxicity (single exposure)

Remarks: No data available.

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:

No data available.

Experimental/calculated data:

No data available.

Aspiration hazard

not applicable

Other relevant toxicity information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms.

Toxicity to fish:

No data available.

Aquatic invertebrates:

No data available.

Aquatic plants:

No data available.

Microorganisms/Effect on activated sludge:

No data available.

Chronic toxicity to fish:

No data available.

Chronic toxicity to aquatic invertebrates:

No data available.

Mobility

Assessment transport between environmental compartments:

No data available.

Bioaccumulation potential

Assessment bioaccumulation potential:

No data available.

Bioaccumulation potential:

Based on its structural properties, the polymer is not biologically available. Accumulation in organisms is not to be expected.

Other adverse effects

Adsorbable organically-bound halogen (AOX):

No data available.

Additional information

Other ecotoxicological advice:

Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations. Do not release untreated into natural waters. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. At the present state of knowledge, no negative ecological effects are expected. The local regulations on waste-water treatment must be followed.

13. Disposal Considerations

Must be disposed of or incinerated in accordance with local regulations.

Do not discharge into drains/surface waters/groundwater.

A waste code in accordance with the European waste catalog (EWC) cannot be specified, due to dependence on the usage.

Observe national and local legal requirements.

14. Transport Information

Domestic transport:

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

Sea transport

IMDG

	Not classified as a dangerous good under transport regulations
UN number or ID number:	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
	Marine pollutant: no
Special precautions for user	None known

Air transport

IATA/ICAO

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
Proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable

BASF Safety data sheet
Date / Revised: 12.11.2025
Product: **Acronal® TC 1015**

Version: 2.0

(30790823/SDS_GEN_SG/EN)

Date of print: 14.11.2025

Environmental hazards:	Not applicable
Special precautions for user	None known

Maritime transport in bulk according to IMO instruments

Maritime transport in bulk is not intended.

15. Regulatory Information

Other regulations

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

16. Other Information

Any other intended applications should be discussed with the manufacturer.

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
