

(BR) Safety data sheet

Page: 1/6

BASF (BR) Safety data sheet
Date / (BR) Revised: 28.12.2007
Product: **Acronal® 4 F**

Version: 1.0

(30040234/SDS_GEN_PE/EN)

Date of print 12.11.2025

1. (BR) Substance/preparation and company identification

Acronal® 4 F

Use: Raw material, for industrial use only

Company:

BASF Peruana S.A.
Avenida Oscar R. Benavides 5915
Callao 1, Callao, PERU
Telephone: +51 1 513-2500
Telefax number: +51 1 513-2519
(BR) E-mail address: ehs-peru@basf.com

Emergency information:

CISPROQUIM (línea gratuita):
Tel.: 080050847
International emergency number:
Telephone: +51 1 513-2505 / +55 12 3128-1590

2. (BR) Composition/information on ingredients

(BR) Type of product: (BR) substance

(BR) Chemical nature

Polymer based on: acrylic ester

3. (BR) Hazard identification

(BR) Effects of the product: No particular hazards known.

4. (BR) First-aid measures

General advice:

Remove contaminated clothing.

If inhaled:

If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

(BR) On skin contact:

Wash thoroughly with soap and water.

(BR) On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:

Rinse mouth and then drink plenty of water.

Note to physician:

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

5. (BR) Fire-fighting measures

Suitable extinguishing media:

water, dry extinguishing media, foam, carbon dioxide

Further information:

The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations.

(BR) Special protective equipment:

Wear a self-contained breathing apparatus.

6. (BR) Accidental release measures

(BR) Personal precautions:

Use personal protective clothing.

(BR) Environmental precautions:

Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.

(BR) Methods for cleaning up or taking up:

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Pick up with suitable appliance and dispose of.

7. (BR) Handling and storage

(BR) Handling

(BR) Technical measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended.

(BR) Fire and explosion protection:

No special precautions necessary.

(BR) Precautions/ Advice on safe handling:

No special measures necessary provided product is used correctly.

Storage

(BR) Further information on storage conditions: Keep container tightly closed and in a cool place.

(BR) Incompatible products and materials:

Segregate from foods and animal feeds.

8. (BR) Exposure controls and personal protection

(BR) Personal protective equipment

(BR) Respiratory protection:

Respiratory protection not required.

(BR) Hand protection:

Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact
(Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN 374): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) and other
Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.

(BR) Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

9. (BR) Physical and chemical properties

(BR) State of matter:

liquid
(20 °C)

Form:

highly viscous, liquid

Colour:

colourless
clear

Odour:

faint specific odour

BASF (BR) Safety data sheet
Date / (BR) Revised: 28.12.2007
Product: **Acronal® 4 F**

Version: 1.0

(30040234/SDS_GEN_PE/EN)

Date of print 12.11.2025

(BR) pH value:

No data available.

(BR) Specific temperatures or temperature ranges at which changes in physical state occur

Boiling range:

Not applicable

solidification temperature:

No data available.

(BR) Flash point: approx. 150 °C

(DIN 51758)

(BR) Self-ignition temperature: approx. 390 °C

(DIN 51794)

Vapour pressure: 5,0 mbar
(20 °C)Density: approx. 1,04 g/cm³
(20 °C)

Solubility in water: insoluble

(BR) Viscosity, dynamic: 130 - 200 mPa.s
(50 %(m), 23 °C)

(DIN EN ISO 3219)

(BR) Solids content: 98,5 - 100 %

(DIN EN ISO 3251)

10. (BR) Stability and reactivity

Thermal decomposition: To avoid thermal decomposition, do not overheat.

(BR) Hazardous reactions:

No hazardous reactions when stored and handled according to instructions.

11. (BR) Toxicological information

Acute toxicity

LD₅₀ rat (oral): 4.000 mg/kg

Other relevant toxicity information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

12. (BR) Ecological information

(BR) Possible environmental effects, behaviour and fate

Ecotoxicity

(BR) Microorganisms/Effect on activated sludge:

Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations.

Persistence and degradability

Assessment biodegradation and elimination (H₂O):

The product is virtually insoluble in water and can thus be separated from water mechanically in suitable effluent treatment plants.

Additional information

Other ecotoxicological advice:

Do not release untreated into natural waters. The local regulations on waste-water treatment must be followed.

13. (BR) Disposal considerations

(BR) Methods for safe and environmentally preferred disposal

Product: Must be dumped or incinerated in accordance with local regulations.

(BR) Product residues: Must be dumped or incinerated in accordance with local regulations.

(BR) Contaminated packaging:

Uncontaminated packaging can be re-used.

Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. (BR) Transport information

(BR) Land transport

(BR) Road transport

Hazardous good only when carried in heated state

(BR) Rail transport

Hazardous good only when carried in heated state

(BR) Inland waterway transport

Hazardous good only when carried in heated state

Sea transport

15. (BR) Regulatory information

(BR) Hazard and safety information as written on the label.

Directive 1999/45/EC ('Preparation Directive'):

The product does not require a hazard warning label in accordance with EC Directives.

(BR) Other regulations

The information fulfills the requirements of Directive 1999/45/EC concerning preparations and the associated requirements for 'safety data sheets'.

#####

16. (BR) Other information

Any other intended applications should be discussed with the manufacturer.

(BR) Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
