Page: 1/9

BASF Safety data sheet  
Date / Revised: 15.06.2022  
Product: **Acronal® 4 F**

Version: 2.0

(30040234/SDS\_GEN\_VN/EN)

Date of print): 12.11.2025

## 1. Substance/preparation and manufacturer/supplier identification

**Product name:**  
**Acronal® 4 F**

Use: Raw material, for industrial use only

Manufacturer/supplier:  
BASF Vietnam Co. Ltd.  
Level 23, Deutsches Haus, 33 Le Duan,  
Sai Gon Ward, Ho Chi Minh City, Vietnam  
Telephone: +84 28 3824 3833  
Telefax number: +84 28 3824 3832  
E-mail address: minh-triet.thieu@basf.com

Emergency information:  
18001703 (Vietnam)  
Telefax number: +84 28 3824 3832  
International emergency number:  
Telephone: +49 180 2273-112

## 2. Hazard identification

Classification of the substance and mixture:  
No need for classification according to GHS criteria for this product.

Label elements and precautionary statement:

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification:  
No specific dangers known, if the regulations/notes for storage and handling are considered.

BASF Safety data sheet  
Date / Revised: 15.06.2022  
Product: **Acronal® 4 F**

Version: 2.0

(30040234/SDS\_GEN\_VN/EN)

Date of print): 12.11.2025

---

### 3. Composition/information on ingredients

#### Chemical nature

Substance nature: Substance

Polymer based on: acrylic ester

---

### 4. First-Aid Measures

General advice:  
Remove contaminated clothing.

If inhaled:  
If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

On skin contact:  
Wash thoroughly with soap and water

On contact with eyes:  
Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:  
Rinse mouth and then drink 200-300 ml of water.

Note to physician:  
Symptoms: (Further) symptoms and / or effects are not known so far  
Hazards: No hazards anticipated.  
Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

---

### 5. Fire-Fighting Measures

Suitable extinguishing media:  
water spray, dry powder, foam, carbon dioxide

Specific hazards:  
No particular hazards known.

Special protective equipment:  
Wear a self-contained breathing apparatus.

Further information:  
The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations.

---

## 6. Accidental Release Measures

Personal precautions:

Use personal protective clothing.

Environmental precautions:

Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.

Methods for cleaning up or taking up:

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Pick up with suitable appliance and dispose of.

---

## 7. Handling and Storage

### Handling

Protection against fire and explosion:

No special precautions necessary.

### Storage

Suitable materials for containers: Stainless steel 1.4301 (V2), Stove-lacquer O 360, tinned carbon steel (Tinplate), Carbon steel (Iron)

Further information on storage conditions: Keep container tightly closed and dry; store in a cool place.

---

## 8. Exposure controls and personal protection

### Components with occupational exposure limits

| No substance specific occupational exposure limits known.

### Personal protective equipment

Respiratory protection:

Respiratory protection not required.

Hand protection:

Suitable chemical resistant safety gloves (EN ISO 374-1) also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN ISO 374-1): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) etc. Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.

BASF Safety data sheet  
Date / Revised: 15.06.2022  
Product: **Acronal® 4 F**

Version: 2.0

(30040234/SDS\_GEN\_VN/EN)

Date of print: 12.11.2025

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended.

---

## 9. Physical and Chemical Properties

|                             |                                                                        |             |
|-----------------------------|------------------------------------------------------------------------|-------------|
| Form:                       | highly viscous, liquid                                                 |             |
| Colour:                     | colourless                                                             |             |
|                             | clear                                                                  |             |
| Odour:                      | faint specific odour                                                   |             |
| Odour threshold:            | not determined                                                         |             |
| pH value:                   |                                                                        |             |
|                             | substance/mixture is non-soluble (in water)                            |             |
| solidification temperature: |                                                                        |             |
|                             | not applicable                                                         |             |
| Boiling range:              |                                                                        |             |
|                             | not applicable                                                         |             |
| Flash point:                | approx. 150 °C                                                         | (DIN 51758) |
| Evaporation rate:           |                                                                        |             |
|                             | Value can be approximated from Henry's Law Constant or vapor pressure. |             |
| Flammability (solid/gas):   | not flammable                                                          |             |
| Lower explosion limit:      |                                                                        |             |
|                             | For liquids not relevant for classification and labelling.             |             |
| Upper explosion limit:      |                                                                        |             |
|                             | For liquids not relevant for classification and labelling.             |             |
| Ignition temperature:       | approx. 390 °C                                                         | (DIN 51794) |
| Thermal decomposition:      | To avoid thermal decomposition, do not overheat.                       |             |
| Self ignition:              | not self-igniting                                                      |             |
| Explosion hazard:           | not explosive                                                          |             |
| Fire promoting properties:  | not fire-propagating                                                   |             |
| Vapour pressure:            | 5.0 mbar<br>(20 °C)                                                    |             |
| Density:                    | approx. 1.04 g/cm <sup>3</sup><br>(20 °C)                              |             |
| Relative density:           |                                                                        |             |
|                             | No data available.                                                     |             |

BASF Safety data sheet  
Date / Revised: 15.06.2022  
Product: **Acronal® 4 F**

Version: 2.0

(30040234/SDS\_GEN\_VN/EN)

Date of print: 12.11.2025

Relative vapour density (air):

No data available.

Solubility in water: insoluble

Miscibility with water:

immiscible

Partitioning coefficient n-octanol/water (log Pow):

not applicable

Viscosity, dynamic: 130 - 200 mPa.s  
(50 %(m), 23 °C, 25 1/s)

(DIN EN ISO 3219)

Solids content: 98.5 - 100 %

(DIN EN ISO 3251)

---

## 10. Stability and Reactivity

Conditions to avoid:

Avoid extreme temperatures.

Thermal decomposition:

To avoid thermal decomposition, do not overheat.

Substances to avoid:

No substances known that should be avoided.

Hazardous reactions:

No hazardous reactions when stored and handled according to instructions.

No hazardous decomposition products if stored and handled as prescribed/indicated.

Chemical stability:

The product is chemically stable.

---

## 11. Toxicological Information

### Routes of exposure

#### Acute oral toxicity

Experimental/calculated data:

LD50rat (oral): &gt; 2,000 mg/kg (OECD Guideline 423)

#### Assessment of acute toxicity

Virtually nontoxic after a single ingestion.

#### Symptoms

(Further) symptoms and / or effects are not known so far

#### Irritation

Assessment of irritating effects:

Not irritating to eyes and skin.

Experimental/calculated data:

Skin corrosion/irritation In vitro assay: non-irritant (Epiderm Corrosivity Test)

Serious eye damage/irritation: (HET-CAM test in vitro)

### **Respiratory/Skin sensitization**

Assessment of sensitization:

Skin sensitizing effects were not observed in animal studies. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

### **Germ cell mutagenicity**

Assessment of mutagenicity:

The substance was not mutagenic in bacteria. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

### **Carcinogenicity**

Assessment of carcinogenicity:

The whole of the information assessable provides no indication of a carcinogenic effect.

### **Reproductive toxicity**

Assessment of reproduction toxicity:

Not expected to cause reproductive toxicity (based on composition).

### **Developmental toxicity**

Assessment of teratogenicity:

The chemical structure does not suggest a specific alert for such an effect.

### **Specific target organ toxicity (single exposure)**

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

### **Repeated dose toxicity and Specific target organ toxicity (repeated exposure)**

Assessment of repeated dose toxicity:

None known

### **Aspiration hazard**

No aspiration hazard expected.

### **Other relevant toxicity information**

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

---

## 12. Ecological Information

### Ecotoxicity

Toxicity to fish:

LC50 (96 h) > 680 mg/l, *Leuciscus idus* (DIN 38412 Part 15, static)

Microorganisms/Effect on activated sludge:

Inhibition of degradation activity in activated sludge is not to be anticipated during correct introduction of low concentrations.

### Mobility

Assessment transport between environmental compartments:

No data available.

### Persistence and degradability

Elimination information:

10 - 20 % CO<sub>2</sub> formation relative to the theoretical value (28 d) (OECD 301B; ISO 9439; 92/69/EEC, C.4-C) (aerobic, activated sludge, domestic, non-adapted)

### Bioaccumulation potential

Assessment bioaccumulation potential:

The product has not been tested.

### Additional information

Other ecotoxicological advice:

Do not release untreated into natural waters. The local regulations on waste-water treatment must be followed.

---

## 13. Disposal Considerations

Must be sent to a suitable incineration plant, observing local regulations.

Contaminated packaging:

Untamminated packaging can be re-used.

Packs that cannot be cleaned should be disposed of in the same manner as the contents.

---

## 14. Transport Information

### Domestic transport:

|                             |                                                                |
|-----------------------------|----------------------------------------------------------------|
|                             | Not classified as a dangerous good under transport regulations |
| UN number or ID number      | Not applicable                                                 |
| UN proper shipping name:    | Not applicable                                                 |
| Transport hazard class(es): | Not applicable                                                 |
| Packing group:              | Not applicable                                                 |
| Environmental hazards:      | Not applicable                                                 |
| Special precautions for     | None known                                                     |

## 15. Regulatory Information

**Other regulations**

The SDS is composed base on the Global Harmonization Globally Harmonized System of Classification and Labeling of Chemicals and applicable local chemical regulations as following :

- The Chemical Law.
- The decree No. 113/2017/ND-CP, Circulars and their replacement (if yes).
- The decree 42/2020/ND-CP guiding on dangerous goods (DG) list, transport and licensing of DG by road and inland waterway.
- Other applicable local regulations.

In case there is a replacement of the above decrees and their circulars, we will update all relevant data accordingly.

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.
